COMBINATIONS MADE IN THE CHECKLIST OF THE VASCULAR PLANTS OF TEXAS

Kancheepuram N. Gandhi

The North Carolina Botanical Garden, Department of Biology, Coker Hall, University of North Carolina, Chapel Hill, North Carolina 27599-3280 U.S.A.

ABSTRACT

Four new combinations, proposed by Gandhi in the Checklist of the Vascular Plants of Texas (Hatch, et al. 1990), are validated here.

KEY WORDS: Checklist, Texas, Asteraceae, Commelinaceae

In the Checklist of the Vascular Plants of Texas (Hatch, et al. 1990), Gandhi proposed four new combinations. Unfortunately, the requirements of Art. 33.2 of the International Code of Botanical Nomenclature (Greuter 1988) were not met and the combinations remain invalid. Hence, those combinations are proposed here for validation and the relevant page numbers of the Checklist are indicated.

Asteraceae

p. 120. Heterotheca subaxillaris (Lam.) Britt. & Rusby var. psammophila (Wagenkn.) Gandhi, comb. nov. BASIONYM: Heterotheca psammophila Wagenkn., Rhodora 62:76. 1960.

p. 120. Hymenopappus scabiosaeus L’Her. var. riograndensis (B. Turner) Gandhi, comb. nov. BASIONYM: Hymenopappus artemisiifolius DC. var. riograndensis B. Turner, Rhodora 58:305. 1956.

276
Commelinaceae

ACKNOWLEDGMENT

The author thanks Dr. John T. Kartesz for helpful comments.
